

Medical Training Survey 2021 Tasmania

INTRODUCTION

The Medical Training Survey (MTS) is a national, profession-wide survey of doctors in training in Australia. It is safe and confidential and generates profession-wide data that can be used to strengthen medical training in Australia. The MTS is conducted annually with doctors in training, with 2021 representing the third wave of data collection.

METHOD

In 2021, n=21,604 doctors in training responded to the online survey, with n=20,671 responses eligible for analysis (i.e. currently training in Australia) between 22 July and 8 October 2021.

RESPONSE RATES

These results have been based on n = 526 doctors in training, working in locations across Tasmania and compared against 2019 (n = 244) and 2020 (n = 488) results where available.
